TROPICAL CYCLONE BULLETIN NR. 9
Tropical Storm MAYMAY (KUJIRA)

Issued at 11:00 PM, 05 August 2026
Valid for broadcast until the next bulletin at 2:00 AM tomorrow.

MAYMAY ACCELERATES AS IT MOVES CLOSER TO ILOCOS SUR – ILOCOS NORTE AREA.

Location of Center (10:00 PM)

The center of Tropical Storm MAYMAY was estimated based on all available data in the vicinity of Magsingal, Ilocos Sur **(17.7°N, 120.0°E).**

Intensity

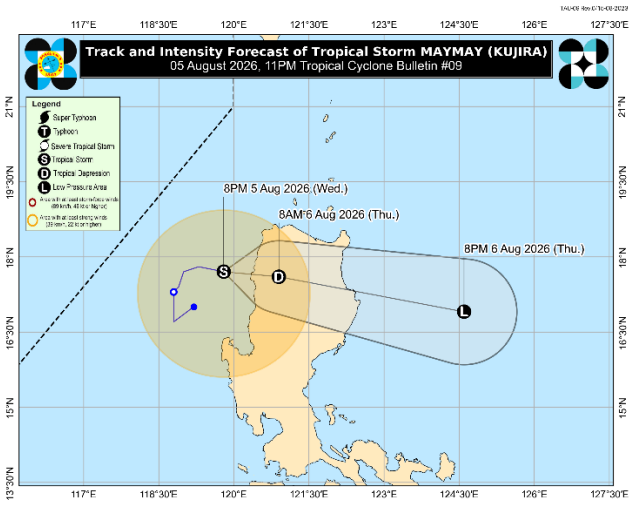
Maximum sustained winds of **75 km/h** near the center, gustiness of up to **90 km/h**, and central pressure of **996 hPa.**

Present Movement

Eastward at 20 km/h

Extent of Tropical Cyclone Winds

Strong to gale-force winds extend outwards up to **220 km** from the center



TRACK AND INTENSITY FORECAST

Date and Time	Center Position			Intensity		Movement dir. and speed (km/h)
	Lat. (°N)	Lon. (°E)	Location	MSW (km/h)	Cat.	
12-Hour Forecast 8:00 AM 06 August 2026	17.6	120.9	In the vicinity of Licuan-baay, Abra	55	TD	E 10
24-Hour Forecast 8:00 PM 06 August 2026	16.9	124.6	310 km East of Echague, Isabela	-	LOW	E 35

TROPICAL CYCLONE WIND SIGNALS (TCWS) IN EFFECT			
TCWS No.	**Luzon**	**Visayas**	**Mindanao**
2 Wind threat: **Gale-force winds**	**Ilocos Norte, Ilocos Sur, the northern and central portions of La Union** (Luna, Caba, Santol, Bauang, City of San Fernando, San Juan, Bagulin, Aringay, Bangar, San Gabriel, Burgos, Naguilian, Bacnotan, Sudipen, Balaoan), **the northwestern portion of Pangasinan** (Anda, Bolinao, Bani), **the western portion of Apayao** (Conner, Kabugao, Calanasan), **Abra, the western portion of Kalinga** (Pasil, Tinglayan, Balbalan, Lubuagan), **the western portion of Mountain Province** (Besao, Tadian, Bauko, Sagada, Sabangan, Bontoc, Sadanga), **the northwestern portion of Benguet** (Mankayan, Kapangan, Kibungan, Sablan, Bakun, La Trinidad, Tublay, Atok, Buguias), and **the northwestern portion of Cagayan** (Santa Praxedes, Claveria)	-	-
	Warning lead time: **24 hours** Range of wind speeds: **62 to 88 km/h (Beaufort 8 to 9)** Potential impacts of winds: **Minor to moderate threat to life and property**		
1 Wind threat: **Strong winds**	**The rest of La Union, the rest of Pangasinan, the rest of Apayao, the rest of Kalinga, the rest of Mountain Province, Ifugao, the rest of Benguet, the southern portion of Babuyan Islands** (Calayan Is., Dalupiri Is, Fuga Is., Camiguin Isl.), **the rest of mainland Cagayan, Isabela, Quirino, Nueva Vizcaya, the northern portion of Zambales** (Candelaria, Santa Cruz, Masinloc, Palauig), **the northern portion of Tarlac** (Mayantoc, San Clemente, Camiling, Santa Ignacia, Gerona, Paniqui, Moncada, San Manuel, Anao, Ramos, Pura, Victoria), **the northern portion of Nueva Ecija** (Carranglan, Lupao, Cuyapo, Talugtug, Nampicuan, Guimba, Science City of Muñoz, San Jose City, Pantabangan, Bongabon, Rizal, Llanera, Talavera, Santo Domingo, General Mamerto Natividad, Quezon, Licab), **and the northern and central portions of Aurora** (Dilasag, Casiguran, Dinalungan, Dipaculao, Baler, San Luis, Maria Aurora)	-	-
	Warning lead time: **36 hours** Range of wind speeds: **39 to 61 km/h (Beaufort 6 to 7)** Potential impacts of winds: **Minimal to minor threat to life and property**		

OTHER HAZARDS AFFECTING LAND AREAS

Heavy Rainfall Outlook

Refer to **Weather Advisory No. 17 issued at 11:00 PM today** for the heavy rainfall outlook due to TC MAYMAY and the Southwest Monsoon.

Severe Winds

The wind signals warn the public of the general wind threat over an area due to the tropical cyclone. Local winds may be slightly stronger/enhanced in coastal and upland/mountainous areas exposed to winds. Winds are less strong in areas sheltered from the prevailing wind direction.

- **Minor to moderate impacts** from gale-force winds are possible within any of the areas under Wind Signal No. 2.
- **Minimal to minor impacts** from strong winds are possible within any of the areas under Wind Signal No. 1.

The Southwest Monsoon and the periphery of MAYMAY will bring **strong to gale-force gusts** over the following areas (especially in coastal and upland areas exposed to winds):

- **Today until Friday (05 to 07 August):** Most of the country.

HAZARDS AFFECTING COASTAL WATERS

A Gale Warning is in effect over the western seaboard of Northern Luzon. For more details, refer to Gale Warning No. 4A issued at 11:00 PM today.

24-Hour Sea Condition Outlook

Up to very rough seas over the following coastal waters:

- **Up to 5.0 m:** The seaboards of Ilocos Sur, La Union, and Pangasinan; the western seaboard of Ilocos Norte.
- **Up to 4.5 m:** The northern seaboard of Batanes.
- **Sea travel is risky for all types or tonnage of vessels. All mariners must remain in port or, if underway, seek shelter or safe harbor as soon as possible until winds and waves subside.**

Up to rough seas over the following coastal waters:

- **Up to 4.0 m:** The remaining seaboards of Batanes; the seaboards of Babuyan Islands; the northeastern seaboard of mainland Cagayan.
- **Up to 3.0 m:** The remaining seaboards of Ilocos Norte and mainland Cagayan; the eastern seaboards of Isabela, northeastern Aurora, and Davao Oriental; the northern seaboards of Camarines Norte, Camarines Sur, and Northern Samar; the northern and eastern seaboards of Catanduanes; the western seaboards of Zambales, Bataan, and northwestern Occidental Mindoro including Lubang Islands.
- **Mariners of small seacrafts, including all types of motorbancas, are advised not to venture out to sea under these conditions, especially if inexperienced of operating ill-equipped vessels.**

Up to moderate seas over the following coastal waters:

- **Up to 2.5 m:** The remaining seaboards of Aurora and Occidental Mindoro; the northern and eastern seaboards of Polillo Islands; the eastern seaboards of Albay, Sorsogon, Northern Samar, Eastern Samar, Dinagat Islands, and Surigao del Sur; the western seaboards of Batangas; the northern and western seaboards of northern Palawan including Calamian Islands; the seaboards of Kalayaan Islands.
- **Up to 2.0 m:** The seaboards of Romblon, Masbate, Cagayancillo Islands, Caluya Islands, Camiguin, and Davao Occidental; the southern seaboards of Oriental Mindoro, Quezon, Marinduque, Cuyo Islands, Iloilo, Guimaras, Bohol, Southern Leyte, and Davao Oriental; the western seaboards Antique, mainland Palawan, Negros Occidental, Biliran, northwestern Leyte, and Surigao del Norte; the remaining seaboards of Batangas, Camarines Norte, Camarines Sur, Catanduanes, Albay, and Sorsogon; the northern seaboard of Cebu.
- **Mariners of motorbancas and similarly sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions**.

Other coastal waters have forecast wave heights of less than 2.0 m.

BAGONG PILIPINAS

TROPICAL CYCLONE BULLETIN NR. 9
Tropical Storm MAYMAY (KUJIRA)
Issued at 11:00 PM, 05 August 2026
Valid for broadcast until the next bulletin at 2:00 AM tomorrow.

TRACK AND INTENSITY OUTLOOK
• **It must be emphasized that heavy rainfall and severe winds may still be experienced in localities outside the landfall point and the forecast confidence cone. Refer to "Other Hazards affecting Land Areas" for more details. Furthermore, the track may still shift within the limit of the forecast confidence cone.** • MAYMAY will move generally eastward and may make landfall in the vicinity of Ilocos Sur or Ilocos Norte tonight or tomorrow (06 August) early morning. Afterwards, it will traverse the mountainous terrain of Northern and Central Luzon before emerging over the eastern coastal waters of Isabela or Cagayan. • MAYMAY is forecast to remain as a tropical storm until it makes landfall in the vicinity of Ilocos Sur or Ilocos Norte. Then, as it moves further inland, MAYMAY will weaken into a tropical depression likely by tomorrow morning and may be downgraded into a low pressure area by tomorrow afternoon or evening. However, due to interaction with the rugged terrain, an earlier weakening is possible.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 2:00 AM tomorrow.
